Presented by

Dr. Bertha K. Madras is a Professor of Psychobiology at Harvard Medical School. A faculty member and neuroscientist for 30 years, her research on psychoactive or therapeutic drugs, brain imaging, and others is published in over 200 manuscripts, articles, books, book chapters, and commentaries.

Most recently, June 2017, Dr. Madras was sworn in as one of six commissioners on the President's Commission on Combating Drug Addiction and the Opioid Crisis.

She is principal editor/co-editor of books, "The Cell Biology of Addiction"; "The Effects of Drug Abuse in the Human Nervous System"; "Imaging of the Human Brain in Health and Disease".

The World Health Organization (WHO) commissioned her to author a monograph "Update of Cannabis and its Medical Use".
