

## Disclosure of Relevant Financial Relationships

---

As an organization accredited by the ACCME, Southern Medical Association requires everyone who is in a position to control the content of an education activity to disclose all relevant financial relationships with any commercial interest. The ACCME defines "relevant financial relationships" as financial relationships in any amount, occurring within the past 12 months, including financial relationships of a spouse or life partner that could create a conflict of interest.

Southern Medical Association encourages Speakers/Authors to identify investigational products or off-label uses of products regulated by the US Food and Drug Administration, at first mention and where appropriate in the content.

**Alexander H. Vo, PhD**, currently serves as Vice President, Telemedicine and Health Innovations at the University of Texas Medical Branch (UTMB) where he leads the development of new telemedicine initiatives for both clinical and academic enterprises. Dr. Vo also leads the Department of Health Innovations, a division at UTMB that was founded to generate new health-related technologies cultivated from UTMB's vast experience in clinical care delivery and biomedical research. Concurrently, Dr. Vo is chief executive officer (CEO) of Medical Branch Innovations, a wholly owned subsidiary holding company of UTMB tasked with technology commercialization. Prior to his current role, Dr. Vo served in a senior executive position as Vice President of Electronically Mediated Services at Colorado Access, a health insurance plan in Colorado, where he was subsequently promoted to CEO of three of its subsidiary companies.
