

Disclosure of Relevant Financial Relationships

As an organization accredited by the ACCME, Southern Medical Association requires everyone who is in a position to control the content of an education activity to disclose all relevant financial relationships with any commercial interest. The ACCME defines "relevant financial relationships" as financial relationships in any amount, occurring within the past 12 months, including financial relationships of a spouse or life partner that could create a conflict of interest.

Southern Medical Association encourages Speakers/Authors to identify investigational products or off-label uses of products regulated by the US Food and Drug Administration, at first mention and where appropriate in the content.

The following individuals, **unless otherwise noted, have no relevant financial relationships to disclose.**
