

American Journal of Hypertension

2nd Hypertension Summer School 2027

July 22-26, 2027

Loyola University
Chicago, Illinois
USA

Organizers:

Stephanie W Watts
Don DiPette
R Clinton Webb
Emma Wabel
Rinaldo Rodrigues
Stephen Juraschek

The summer school is an opportunity for trainees to meet and learn together, creating a network of students and fellows to lead the next generation of hypertension scientists and educators.

The school will also be helpful to clinicians or basic scientists who may be changing direction in their research programs and who wish to learn the basic principles and concepts behind new techniques used in hypertension research.

What you gain

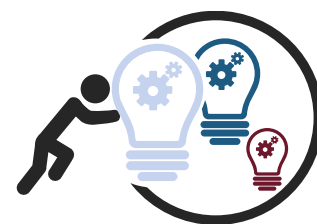

Knowledge

- basic
- clinical
- population

Community

Inspiration Motivation

•Workshops

(AI, Drug discovery, BP measurement)
